\$2.00 Yr. in advance; 5c per copy

MRS. SARAH MASON SUSTAINS INJURY FALLING ON STAIRS

Mrs. Sarah Mason, of Boskung, suffered a very painful injury and considerable shock on Saturday last, when she fell on the stairs in her home. This elderly lady, well known to all the residents of the Boskung Island, was severely shocked by her accident and caused her family grave concern. She showed some improvement after a rest and was taken to the Haliburton Red Cross Hospital, where it was found that she was suffering from a dislocation of her left shoulder and numerous bruises. Her shoulder was reduced and she was allowed to return to her home.

GOLF BALL RICOCHETS AND INJURES PLAYER

A golf ball proved to be Mr. C. F. Morrison's downfall on Friday last, while playing at the Haliburton Highlands Golf Course. Mr. Morrison, when attempting to play a shot out of the rough, had the misfortune of having the ball strike a stone a few feet in front of him and rebound with such force to almost knock himself out and lacerate his chin. He was treated at the Haliburton Outpost Hospital, where several stitches were required to close the wound.

Falling With Son In Arms Father Fractures Nose

Mr. J. G. Middleton, cottager of West Guilford, whose home is in Toronto, suffered a very unusual accident on Sunday last. While visiting his son at Camp Gay-Venture, he had the misfortune to fall with his small son in his arms and struck his nose against the little fellows' head. He was immediately given first aid by Dr. Sparling, of Toronto, who diagnosed a fractured nose. He was later treated at the Red Cross Hospital, at Haliburton, where x-ray examination revealed the fracture.

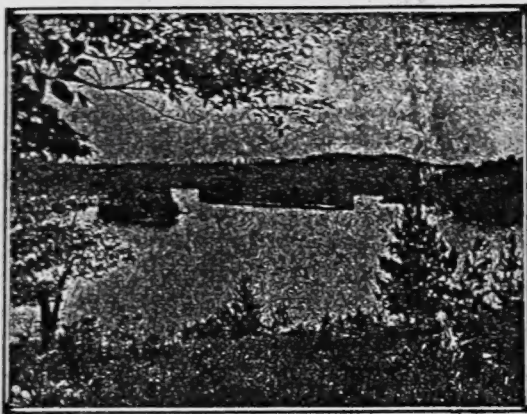

EIGHT FOREST FIRES IN TRENT DISTRICT REPORTED BY DEPT.

Eight Forest Fires occurred in the Trent District during the week ending with Sunday July 24th. The rains which fell Sunday night were a very welcome relief to the Forest Protection Personnel. Fighting Forest fires, which are mainly caused by some person's carelessness, is difficult and often a discouraging task, especially when drought, low humidity and winds all work against those whose task is to 'put that fire out.' The fact that seven out of the eight fires were kept to three acres or less, indicates the alertness of the Forest Ranging staff in meeting the situation. The eighth fire was in the vicinity of a Construction Camp, about 12 mi. north of the village of Haliburton, and was a very difficult fire to bring under control. It reached an area of 45 acres and, even with the recent rains, this fire is still being patrolled. Fire, as a result of dry weather, enters very deeply into the humus layer on the forest floor.

Mr. and Mrs. Bruce Gibbs of Haliburton, are the proud parents of a son, who was born to them at the Haliburton Red Cross Hospital recently.

ALL GOOD THINGS BEGIN AT HOME

All good things begin at home. The way we live together in our families is preparation for the way we live together in the world outside.

Around most any bend in the road in the Haliburton Highlands, one will come face to face with beautiful scenic pictures such as the one above. Islands dot the many lakes and add to the picturesqueness of the terrane

Five Minutes After I Die

Loved ones will weep o'er my silent face,
Dear ones will clasp me in sad embrace;
shadows and darkness will fill the place,
Five minutes after I die.

Faces that sorrow I will not see,
Voices that murmur will not reach me,
But where oh! where will my spirit be;
Five minutes after I die.

Quickly the years of my life have flown,
Gathering treasures I thought my own,
There I must reap from these seed I have sown,
Five minutes after I die.

Naught to repair the good I lack,
Fixed to the goal of my chosen track,
No room to repent; no turning back,
Five minutes after I die.

Now I can stifle convictions stirred,
Now I can stifle convictions heard,
Then the fulfilment of God's sure word,
Five minutes after I die.

Mated for aye with my chosen long is eternity, O so long,
Then woe is me, if my soul be wrong,
Five minutes after I die.

Oh, what a fool; hard the word but true,
Passing the Saviour with death in view,
Doing a deed I can ne'er undo,
Five minutes after I die.

If I am flinging a fortune away,
If I am wasting salvation's day,

When Does A Man Grow Old

I think I can state accurately the exact moment when a person passes into old age. It is the moment when he discovers that in solitude his thoughts regularly turn more toward the past than to the present or the future.

It is certainly true that most people look forward toward the future up to a certain point in life. Some reach the looking back stage much earlier than others while some fortunate persons always look forward even on the brink of eternity.

Little children want to be told that they are "big boys" or "big girls" and big boys and girls are impatient for maturity. After that they look forward to marriage, a career, the first child or the first house they own.

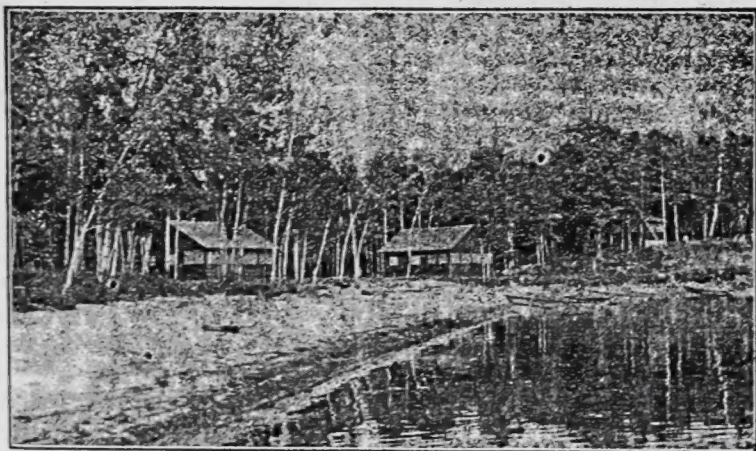

Then comes the looking forward phase in which the spotlight of intense interest is trained on achieving financial security and rearing (Continued on Page 4)

"Just is my sentence," my soul shall say,
Five minutes after I die.

Thanks be to Jesus for pardon free,
He paid my debt on Mount Calvary's tree,
Paradise Gates will enfold even me,
Five minutes after I die.

O marvelous grace that has rescued me,
O joyous moment when Jesus I see,
O happy day when like him I'll be,
Five minutes after I die.

God help you to choose; your eternal state,
Depends on your choice, you dare not wait;
You must choose now; it will be too late,
Five minutes after you die.

Cottages such as those shown above are "sitting pretty" all along the byways of the wooded areas of the Haliburton Highlands and offer a haven of rest to the many visitors during the summer holiday season, who enjoy "nature at its rugged best."

\$800. DAMAGE INCURRED IN TRAFFIC ACCIDENT

Provincial Police at Minden report an automobile accident at Maple Lake on Friday, July 29th. The accident involved vehicles driven by Harold Nicholson, of Maple Lake and Wilbert Upton of Eagle Lake. A charge was laid under the Highway Traffic Act against Nicholson for failure to give half the road and the side-swipe which occurred resulted in approximately \$400. damage to the Upton truck and \$400. to the Nicholson car. The police are proceeding with the investigation of the accident. Neither drivers nor passengers was injured in the crash.

SCALP CUT IN MILL ACCIDENT

John Maquire, of Haliburton, suffered a laceration of the scalp on Saturday last. He was employed by W. O. Bailey & Son, and was making repairs in the Haliburton plant when the accident occurred. Dr. L.H. Carroll, of Haliburton treated him at the Outpost Hospital, where it was found necessary to use several stitches to close the wound.

MRS. MATILDA KUNCANS FRACTURED LEFT WRIST

Mrs. Matilda Kuncans, of Eagle Lake, suffered a fracture of the left wrist on Saturday last, while in the employment of Mr. S. Graham of the Silver Eagle Lodge at Eagle Lake. During the course of her duties at the lodge, Mrs. Kuncans had the misfortune to fall and strike her left wrist and so causing her injury. She was treated at the Haliburton Red Cross Hospital and was allowed to return to her home.

S O R R Y !

We wish to make a correction to our report of the Police Court News held under Magistrate Philips in Minden recently. "Howard Thompson of Maple Lake, was found guilty as charged for careless driving under the Highway Traffic Act and fined \$10.00 and costs" rather than a charge of having liquor open in a place other than his residence.

"MUSKIES" CAUGHT IN BURNT RIVER

An item of interest to local and visiting fishermen has recently come to our ears. From two separate sources, we have learned that maskinonge weighing up to ten pounds have been caught in the Burnt River above the dam at Kinmount. The presence of 'muskies' in the Burnt River above Kinmount will mean that within a short period of time, these great fish will make their way up into the many lakes and streams of the Burnt River System. This will mean that they will find their way into Canning's Lake, big and little Koshinawigamog, Grass Lake and Head Lake at Haliburton. They will also make their way up the branch of the river which runs through Donald and on up to Blue Hawk Lake.

There are many grassy lakes in Haliburton County where muskies will do well and as a tourist attraction, their presence in the waters of our lakes and rivers, will have a great appeal.

DOUBLE-DOSE

Latest report is that double-feature films are scheduled for television fans. That's good news for Junior but Senior can't understand why such a brand new medium as television insists on using films that were brand new at the start of the movie industry.

THOMAS POLLOCK FALLS FROM LADDER, INJURING SPINE

Thomas Pollock, of Eagle Lake suffered a serious injury to his spine recently, when he fell from a ladder, while painting at the top of the peak of the house, when the extension ladder slipped and allowed him to fall to the ground. Neighbours, who witnessed the accident, went to his aid and he was removed to the Haliburton Hospital, where it was found that he had fractured his spine and several ribs. He was fortunate in that he did not suffer any nerve injury and was removed by ambulance to the Ross Memorial Hospital, at Lindsay, for further treatment of his spinal injury.

FOOT HURT CAUGHT BETWEEN TWO LOGS

Mr. V. Tiberi, a recent immigrant from Italy and nephew of Mr. Bruno Tiberi, of Haliburton, suffered a very painful accident to his left foot while working for the H. E.P.C. at Eagle Lake. He was helping to clear logs from the right-of-way when his foot became 'jammed between two logs'. He was rushed to the Haliburton Hospital where it was found that his foot was badly bruised.

TORONTO VISITOR CUTS FOOT WHILE BATHING

Miss Helen Crozier of Toronto, and a summer visitor, in Haliburton were treated at the Haliburton Red Cross Outpost Hospital for a cut of their feet, which occurred while bathing.

DICK HOLLAND'S HAND CUT BY POWER SAW

Dick Holland, son of Mr. and Mrs. Wm. Holland, of Haliburton suffered a very painful injury to his hand on Thursday last when he had the misfortune of having his hand severely cut on a power saw. He was treated at the Haliburton Red Cross Hospital.

GAME WARDEN ANNOUNCES FISH STOCKING PROGRAM

Game warden D. McEachren, of West Guilford, advises further stocking of lakes in the Haliburton district. Small mouth bass were stocked by the Department of Game and Fisheries in the following lakes: Paradise Lake 400, Jim Beef Lake 400, Pine Lake 400, Loon Lake 400, Black Lake 400, Head Lake 400, Koshlong Lake 400.

This splendid program of restocking our lakes by the department is to be highly commended, as it is only through such planning that our lakes may continue to be attractive to the many tourists and fishermen who follow the sport of Isaac Walton in Haliburton County.

Readers note that winter excursion fares with a 60 day validity on Trans-Canada Air Lines North Atlantic services will come into effect from October 1st, 1949, it was announced today by Adson C. McKim, T.C.A.'s Vice-President of Traffic.

The fare and a third round trip tickets will mean savings of \$180.00 between Montreal and London \$169.90 between Montreal and Prestwick and \$164.80 between Montreal and Shannon, Ireland. There is no tax on these fares.

Excursion round trip tickets have to be purchased prior to midnight March 31st, 1950, and all excursion tickets on T.C.A.'s North Atlantic routes expire midnight April 30th, 1950.

EDITORIALS

THE ADDITIONAL \$6,000?

We in our position as Councillor in the Municipality of Dysart, consider that we have some knowledge of the difficulties that might be encountered by next year's Council. One of the most pertinent questions is going to be, how can the Council raise \$12,500 from taxation to assure a Road By-Law of \$50,000, without further raising the mill rate and so the taxes? For the past two years the Councils have availed themselves of the Post War Construction Fund in order to procure this \$50,000 road by-law. In 1948 in the neighbourhood of \$9,000 was used from this fund and in 1949 some \$6,000 was allocated for this purpose. With this fund completely dissipated how then is the 1950 Council going to raise this sum of money?

In past issues we have made the suggestion that the lakeshore properties of the various lumbering companies be assessed not as timber or slash lands, but as lakeshore properties on a foot-frontage basis. If such were done this additional money could be derived from taxation without further burden to the general public. Such a suggestion will and has met with disapproval from these various companies, but we ask the question, Who better should stand this cost?

Our lumbering companies, with their large trucks and heavy loads, in our humble opinion are responsible for most of the wear and tear on our roads. Such increased assessment on these companies would compensate for this increased cost of maintenance of our roads. No doubt we will be handed the argument that they help maintain the cost of our roads by purchase of hundreds of gallons of gasoline upon which there is a tax collected for such purposes, also they pay a heavy license fee which is supposedly used for such purposes. Let us point out however that such tax and license payments are made to the Provincial Treasury and not as a contribution to the Municipal funds. The only way that a Municipal Council can avail itself of such monies is by a Road By-Law in which a percentage is supplied by the Provincial Department. In the case of Dysart seventy five percent of the By-Law is paid for by the Province — but note carefully — that in order to get any portion of this 75% grant, the Municipality has to put up the first 25%. With the present rate of taxation the Municipality of Dysart is capable of raising only \$6,500. Where then is the Council of 1950 going to raise the additional \$6,000 required?

Our suggestion of taxation of such lakeshore pro-

perties seems to us just and right and we leave the ratepayer to make his own deductions and conclusions. The formation of an active and progressive Ratepayers Association in the Municipality of Dysart might do much to bring about these much needed changes in our assessment.

NOM DE PLUMES NOT ANONYMOUS

The Haliburton County News has recently received public criticism for the printing of anonymous letters to the editor. Such a practice is not unethical, rather it is a privilege of citizens to publically make known their opinions, without danger of pressure being brought against themselves. All such letters have been signed and the names withheld by request of the writer.

We agree that such letters lose some of their "punch" when they are published without the writers name, and it is our fervent hope that at some time in the not too distant future, our democratic rights may become so applicable that such utterances may be made without fear.

It is our privilege to be acquainted with certain facts regarding some persons who have used our column of Letters to the Editor. Because these persons have expressed truths they have been socially ostracized, their means of earning a livelihood has been prejudiced and they have had slanderous and malicious rumours circulated about themselves. In view of this there is every justification for such individuals to withhold their names, but at the same time retain the privilege of expressing their opinion.

RIGHT TO DIFFER

(Courtesy of Christian Science Monitor)

Former Governor Herbert H. Lehman has performed a salutary and courageous service in replying to the aspersions cast by Francis Cardinal Spellman against Mrs. Franklin D. Roosevelt for her endorsement of the policy of providing federal financial aid to public schools alone without reference to private or parochial schools.

"I do not question your right to differ with me," wrote the Cardinal, yet he opened his letter by describing Mrs. Roosevelt's newspaper column of June 23 as a "personal attack" in which "you . . . condemned me for defending Catholic children."

Anyone who rereads the former first lady's "My Day" of that date will find in it no word of personal condemnation or criticism of Cardinal Spellman for his or his church's views. He will find instead a temperate statement of an objective, impersonal stand in support of separation of church and state as applied in the exclusive financing of public schools from public funds.

But apparently one cannot resist demands for free bus transportation for parochial school pupils without having this construed as "oppression and religious persecution." If this is the actual import, many of the Cardinal's own faith may find themselves "deeply shocked at the attack," as Mr. Lehman says he was.

The former New York governor well comments that the issue "is whether Americans are entitled freely to express their views on public questions without being vilified or accused of religious bias."

shale.

LETTERS TO THE EDITOR

The Parsonage,
Haliburton, Ont.;
July 30th, 1949.Dr. Louis H. Carroll, Editor and
Publisher,
The Haliburton County News,
Haliburton, Ont.
Dear Dr. Carroll:-

I have noticed in your Paper of late certain innuendos and remarks apparently meant to mislead the Electorate of Dysart or my own congregations as to my reason of interest as a clergyman and citizen in the affairs of this Municipality. For instance, you have said editorially that certain of "the powers that be" have solicited the aid of the clergy in their efforts to frustrate what you would call progress towards better municipal government. Most of your readers would, of course, conclude that the remark was directed about the undersigned.

In any event, the time may well have come to clear the decks and let the public decide. I am prepared to defend my stand at the recent municipal election, to which you took exception editorially. I challenge you to produce evidence that I am linked up with any combination of "powers" other than the doctrine and purpose of the United Church of Canada. I invite you to come right out on the public platform and present whatever case concerning the undersigned which you may think you have. Let the municipal hall be rented for this. Let someone such as the principal of the Public School or Continuation School act as an independent chairman. Be a man and present your view fairly. Let a week's time be given in advance so that the public may be notified and in attendance. I will personally share the expense of the hall with you and give a receipt if necessary to show that no one is backing me up financially.

I shall await your reply. I ask that this letter be published in your Paper. And because any Paper which is unethical enough to print anonymous letters on vital subjects, such as your Paper has done, lest this invitation not appear in your Paper, I am sending a copy to be circulated in the Highland News.

Yours Truly,
Gordon Smyth

Editors Note: We beg to advise our readers and Rev. Gordon Curry Smyth that it is neither our desire or intention to enter into a public debate with him on any subjects mentioned in his letter. In our editorials we have expressed our "opinions" of certain subjects and no amount of debate, either private or public, is going to change them. If Mr. Smyth is desirous of "hiring a hall" to convince the people of this village, that our opinions are incorrect, then let him do so.

We are too busy practicing medicine and editing this paper to enter into any such harangue to satisfy this publicity-seeking and platform-loving preacher. Can it be that Mr. Smyth is once again anxious to make the front page of the Toronto Daily Star? If so, he can count US out.

Bamboo grows 16 inches a day.

BANK OF MONTREAL TO HAVE
DRIVE-IN BANKING
FIRST IN CANADA

Shank's-mare takes a beating at the new building planned for the Bank of Montreal's Broadway and Granville Street Branch in Vancouver. Featuring drive-in banking facilities - the first at any chartered bank in Canada - the emphasis is at the new building is on streamlined banking service for customers on wheels . . . even to an inside parking area for baby carriages.

Busy customers will drive up to the special outside teller's window, sit in their cars while being served, then drive on - in a fraction of the time taken for shank's-mare customers.

WORLD SOYBEANS

World soybean production in 1948 reached an all time record of 593 million bushels. In 1947 the crop was estimated at 538 million bushels. The United States was the largest producer of soybeans in 1948 with 220 million bushels, compared with 1.7 million in Canada.

HOW TO MAKE COOKING AND BAKING
A PLEASURE

Pioneers in the manufacture of cooking appliances, Gurney have produced a stove, the quality and workmanship of which has gained the confidence of the Canadian housewife. Beauty of design and up-to-the-minute features provide you with a range that will be a fine addition to your home. All models can be equipped with or without a high back, shelf or warming oven. A minute minder and condiment jars can be added for your convenience. Gurney models are available with or without a hot water

front to heat the water in your hot water tank. Added features are a utility drawer, solid base with toe space, modern chrome or bakelite handles and an oven heat indicator. Write or phone for full particulars of the Gurney range. All Models reasonably priced. When you buy a Gurney you buy the best. The model illustrated is the B-58C5, white enamel finish with all the attachments.

Many programs of expansion and alteration have taken place throughout Haliburton County in recent months as the merchants, ever alert to improving their shopping facilities, are keeping in step with the general trend of improvements . . . District residents are becoming more and more conscious of the advantage of shopping in their community, too. Not only is it convenient, but the quality of the merchandise available right here at home is the equal of that obtainable elsewhere. Anything and everything can be bought in this trading area where practically every phase of business life is represented . . . Community merchants take great pride in their community and endeavour to bring about all the improvements necessary to give their customers the best in shopping satisfaction, both as to merchandise and shopping service . . . "Shop locally" may be the slogan of the merchants, but it is much more than that. It is an invitation and a bit of wise counsel for the residents to patronize their merchants and at the same time to take advantage of the excellent services being offered close to home.

DONALD
& KOSHLONG LAKE

A son, 8½ lbs. was born to Rev. and Mrs. Donald Emmerson of St. Catharines.

Mr. Sam Pasquino has returned home after spending a delightful holiday with relatives in the States.

Remember!

With the brilliant and nationwide victory of the Liberal Party in the election of June 27th, interest in politics and party ideals has fallen to a low ebb. However the following programme and ideals of one of the parties came to our notice and we take the liberty of publishing same and are curious how correct our readers can come in naming the party which stands for the following points:-

- The uprooting of economic and social injustice
- The banishment of unemployment
- Replacement of decent housing for our present slum areas
- To make the resources of medical science available to even the poorest urchin in the land
- To stamp out the flames of racial and religious hatred
- To remove the fear glutted markets, starvation prices and crop failures
- To no longer shut away our old folks in bare, lonely rooms to await their end on a starvation pension
- To make available to every child in Canada all the milk and food it can drink or eat
- To make the limit of every child's ability to learn

After study of the above policies turn to page 6 for the answer.

MASKINONGE PLANTED & PHEASANTS RELEASED

The distribution of Maskinonge fingerlings from the Deer Lake Hatchery is almost completed. The past week's distribution included 400 Lunge planted in Peterborough County and 600 planted in Prince Edward County.

The distribution of Pheasant Poult from Cordington Bird Farm has started. These birds are liberated from release pens established in suitable Pheasant habitat where they are cared for, for a short time, in order that acclimatization to changed surroundings can be effected.

The fisherman's success has varied from Lake to Lake throughout the district. Good catches however, have been reported in the vicinity of Deer Lake in Peterborough County and Pine Lake at

SLOW BUSINESS

When Mr. Tolliver, the haberdasher, came home from the store his wife could tell at once that he had had a hard day.

"Customer trouble, dear?" she inquired.

"Yes," Mr. Tolliver replied, "I don't think I have ever had one who tried my patience like this one did."

"Tell me about it, dear," his wife requested.

"Well," said Mr. Tolliver, "it was our local chess champion. He came in today and tried to select a tie!"

Official Tickets will be sent by return mail

Hello Homemakers! This year's Woman's World at the Canadian National Exhibition is indeed electrified. The products of the range and refrigerator will be in the spotlight. Men, along with teenagers, and you, the women, are invited to enter the competition. You will find the food contests 'as easy as pie'. Honestly though, you may win \$100 cash for your apple pie on September 7th, or by submitting a weekend budget for five people on August 31st, or the salad plate you can prepare for them on September 8th. By the way, there are second, third and fourth prizes too.

Here is what to do:
Send the letter stating competitions you wish to enter before

CLASSIFIED ADS

Slender tablets are effective. Two weeks supply \$1.00, twelve weeks \$5.00 at Laurentian Pharmacy, Haliburton and Minden Drug Store.

FOR SALE — 1947 Studebaker truck, M17, three ton heavy duty. Apply Jack Austin, Haliburton. Phone 70. 7/14

"DANCING ON CLOUDS" will be your tune, if only you use Lloyd's Corn Salve soon. 50c at Laurentian Pharmacy, Haliburton; Minden Drug Store, Minden.

WANTED — Licensed automobile mechanic. Phone 87, Haliburton, Ontario. 7/14

FOR SALE — Small cottage on Highway and Donald Road, Mrs. Cuthbert, Haliburton.

FOR SALE — Stoves, beds, tables, chairs, kitchen cabinet, suitable for summer cottages. Apply Mrs. Cuthbert, Haliburton.

FOR SALE — 1939 International 3 ton truck. Good tires. Running gear in fair condition. \$250.00 or \$100.00 for one half ton pickup truck. Robert C. Johnstone, Box 7, Wilberforce.

FOR SALE — Summer home and 30 acres of land. Creek frontage. Good fishing and hunting. Car road to property. Apply Box 245, Haliburton, Ont. 4:11:18....

HELP for tired, burning feet - give yourself an "Ice-Mint" treat. 50c and \$1.00 at Laurentian Pharmacy, Haliburton; Minden Drug Store, Minden; and Douglas' Patent Medicine Store, Kinmount.

August 15th. The address is Mrs. Kate Aitken, Woman's World Exhibition, C.N.E., Toronto.

On the day of the scheduled competition in which you wish to compete, you will go to the second floor in the Coliseum to Woman's World. Check your registration, name and address on application, and be available to take over the project. Everything will be ready for you. There will be an electric range ready at the flip of the switch, and all necessary equipment, as well as the ingredients.

The competitors will be judged on the speed of assembly, the quality of the prepared food, and the artistry of the dish. For example: the ham should be lifted into the pan with the fork, the pan should be carried on the level, the grease should be drained off before the end of the cooking, or the ham should be lifted to a piece of paper towelling on a plate, to drain of excess fat. Then an egg should be broken into a saucer and slipped into the warm fat — first one egg, then the other. Reduce the heat to low and cook with a cover or by basting frequently. Transfer to plate with ease and care.

In regard to the salad, the ingredients will be in the refrigerator for you. Trim and prepare quickly. Think of your color combinations as you shake the washed greens loosely in a towel. Give consideration to food value as well as the quality of the salad ingredients. Do your job just as you would at home and enjoy it. Wish you all could win.

A meal should have good digestibility, that is, salad with custard dessert — never, cream soup and blanc mange on the same menu. A meal should have variety in foods, that is, raw tomatoes and apple pie — never, tomato juice and raw tomatoes.

A meal should have a difference in flavour, that is, a Spanish Omelette and a fruit cup — never, liver and onions and spice cake.

A meal should have a variety in colour, for instance, glazed carrots and lime jelly — never, cauliflower and bread pudding.

A meal should have good digestive foods, for example, roast chicken, and codded apples — never fried pork chops and spicy pie.

The days' meals should include milk or milk dishes, one serving of meat, fish, poultry or two eggs one serving of potatoes, two servings of vegetables — one raw and one coloured, one serving of citrus fruit juice or raw tomatoes, four to six slices of whole wheat bread or a whole-grained cereal product.

Now, plan your menus and plan to win.

There is an easy baking item you can make and deliver on Sep-

When Does A Man Grow Old

(Continued from Page 1)

children. It seems to me that it is at the end of this period when most women begin throwing the spotlight back over their shoulders to years and experiences that are a part of the past.

This is natural, because up to here, the pattern in living and adventure has been well outlined for us. Practically everyone expects to grow up, to marry, to have a family or a career, or both. From this stage on individual outlook becomes of the greatest importance. If you are looking back at dear dead days, rather than at the adventure and excitement of today or the potentialities of the

future you are old.
If you feel that cozy security is more important than a new project you are old. If you feel that there is no merit in new ideas but that the good old days were the best, you are buried with them.

One shining day is enough to bring us excitement but it is helpful also to work toward definite goals. It adds zest to living. The mind and outlook are much more limiting than years.

So, let's look forward rather than back no matter how many years we have lived. This is one of the best ways to remain youthful.

CORRECTLY IDENTIFIED

Mother was describing the delights of a visit they were to have with Aunt Martha in Denver.

"You will hear her play the harp, too," she said to Lucille, who was very fond of music. "You know what a harp looks like, dear?"

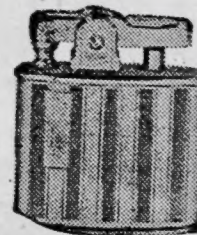

"Oh, yes," replied the five-year-old, "it's a piano without a house around it."

The SNAPSHOT GUILD

It's always picture-taking weather indoors, so don't let your camera lie idle during winter months.

About Pictures Indoors

IF YOU'RE one of those people who customarily put their cameras aside for the winter, you're missing a great deal of the fun photography has to offer. For no matter what the weather is outside, picture-taking weather inside the house is as near as the nearest light switch. Regardless of what type camera you own, you, too, can make indoor pictures.

In general, there are four ways of making snapshots inside the house — by daylight, by light from ordinary room lamps, by flash, and by photoflood. Each of these methods has its advantages and, depending upon your equipment, offers a means of enjoying your camera throughout the winter season.

Each of these methods will be discussed here within the next few weeks. However, whatever method you use, certain points should be checked for each picture. Consequently, you'll want to keep this check list handy for future use.

First, as with outdoor pictures, look to see what's beyond your subject. Indoors or out, when picturing people a plain background is best. Where a distracting background can't be helped, try to throw it out of focus, or keep light away from it. It will be out of focus if you use a large lens opening and shoot close up to the principal subject.

Second, seek a natural pose for your subjects, just as you would outdoors. A picture of a boy carefully pasting a stamp in his album will be more attractive, nine times out of ten, than a shot of the same boy staring directly at your camera.

Third, if you're using a time exposure or a comparatively slow shutter speed, make sure that your subject will be still. With babies or other restless subjects, you will want enough light to enable you to use a fast shutter speed.

Fourth, be sure you know what film you're using. Different black-and-white films require different exposures. Color films generally call for flat lighting.

Fifth, measure distance from lamp to subject. The light on your subject depends as much on the distance from lamp to subject as on the strength of the lamp. Unless you know this distance accurately, you can't be sure of proper exposure.

Sixth, don't let light fall directly on your lens or be reflected into it from mirrors, windows, or other shiny surfaces.

And seventh, measure camera-to-subject distance so you're assured of proper focus. Proper exposure, too, when you're working with flash lamps attached to the camera.

280 —John van Guilder

OLD AGE NEEDN'T BE A NIGHTMARE

Canada's old folk are having a pretty rugged time of it. And what's being done about it? Very little, says the experts.

Trus, some progress has been made in the way of economic security. But, states, H. Cecil Rhodes in "Health" Magazine, official journal of the Health League of

Canada, little is being done to fulfil the natural desires of older people for human companionship, social and recreational interests and opportunities for full participation in the total life of the community.

"This isn't an easy matter to solve," says Mr. Rhodes. "It is one of the most complex of all social problems. It involves a variety of economic circumstances, educational and cultural backgrounds, lifetime habits, health and other complicating factors. But let's suppose a community says 'O. K.! We're going to tackle this problem. Where do we start?'"

The first step is to gather facts where and how these people live; their health and economic status, and what resources are available to meet their needs. Study will disclose that any community has four classes of elderly citizens — the active, semi-active, inactive and senile. If it's a large centre, they will be found in rooming houses, institutions, living with relatives or in their own homes — very much in that order, with the majority in single housekeeping rooms.

In less than 50 years, Canada's 60-plus population has jumped from 400,000 to 1,500,000 and is continuing to out-distance general population gains because of lower birth-rate and the fact that we live longer than our ancestors did.

Keeping older people active in mind and body, and helping them to retain their usefulness as citizens is a complex and urgent problem. Taxpayers are footing a heavy bill for social services, and it will be a great deal heavier, remarks.

Haliburton County News Page 5

As the Small Fry See It!

Four-year-old Don seemed afraid of the big collie that lived next door. But one day, in a spirit of adventure, he climbed the fence into the neighbors yard. The big dog rushed at Don, with tail wagging, and by way of friendly greeting licked his face. Don's screams brought the neighbor running out.

"Did he bite you, son, did he bite you?"

"No," said Don, "but he tasted me!"

Mr. Rhodes, "If we want to set up security measures which will make tolerable the old age of present-day middleagers."

Here are three rules to avoid failure: Worry less, work more; waste less, give more; preach less, practice more.

Lindsay BUSINESS Review

LEITH'S SHOES
LINDSAY

The combination of smartness, perfect fit and wearability in a shoe can only be found in a store where these important features are given the utmost in thought and care, and experience.

Leith's Shoes, conveniently located in Lindsay at 146 Kent Street W., offers you these advantages. The proprietor, Mr. Joseph Leith, with years of experience handling the finest in shoes for every member of the family, can help you solve any shoe troubles you may have. Fitting shoes properly is a job for an expert, and you will be repaid many times over in foot comfort, satisfaction and appearance by taking your problems there.

Shoes in a wide variety of styles that play a leading role in the correct costume of the well-dressed woman are on display at this popular store, as well as shoes for men, that fit with the same comfort you have always wanted.

Mr. Leith, with almost fifteen years experience in this business took over the store from H. J. Mulen in April 1946. In addition to carrying the finest in shoes, Mr. Leith stocks a large stock of luggage, that included trunks and travelling bags.

In regards to anything in the line of footwear or luggage we suggest that you cannot do better than pay a visit to Leith's Shoes and see their large stock. You will find that shopping here is not only profitable, but also a pleasant experience.

MOTOR CARS COLLIDE
NEAR WILBERFORCE

Provincial Officer Al. Edwards of the Minden Detachment reports a traffic accident four and a half miles east of Wilberforce. Mr. John Smith of Kitchener at the time of the accident holidaying at Elephant Lake, was proceeding west and on coming over a sharp hill, observed another car proceeding east. He attempted to avoid an accident and crossed the road to the south side and collided head-on with a car driven by Mrs. Cudney, of Winona, whose summer home is at Wilberforce.

No one was injured in the accident and damage to the Smith car was estimated at \$275.00 and the Cudney car at \$225.00. No charges have been laid, but the police are continuing their investigation.

The first drop in ten years in national average of land values is reported in the United States. During the four month period ending February 28, 1949 land values showed a decline of one per cent from are now only three per cent above March, 1948. The volume of voluntary farm land sales declined by 12 per cent during the year ending March, 1949.

Mr. and Mrs. Cecil Burke, and Mr. Russell Burke motored to Lindsay on Saturday to visit their brother Alfred Burke who is in the Ross Memorial Hospital there.

Mr. and Mrs. Morgan Loucks of Toronto visited the former's sister Mrs. Wm. Dugan and family recently.

Mr. and Mrs. Eldon Hicks and family of Toronto are holidaying

THURSDAY, AUGUST 4th, 1949

HEAVY TOURIST INFLUX. REPORTED BY DEPT.

The July 1st to July 4th week-end was one of the heaviest for tourist influx into the Lake and Forest country of Haliburton and Peterborough Counties. It also marked the weekend for the opening of the Bass and Lunge Season.

Of the many thousands of people entering the district, the usual small percentage of careless people have made their appearance. result a marked increase in Camper's fires. Unfortunately a camp fire left smouldering may take several hours to a day or more before it breaks out; eight fires were reported and extinguished during the past week.

Seven of these were caused by Careless Campers.

Two occurred in Gullford Township in Haliburton.

One occurred in Lutterworth Township in Haliburton.

One occurred in Sherborne Township in Haliburton.

One each occurred in Cavendish, Methuen and North Burleigh Townships in Peterborough. The eighth fire was caused by a party clearing up bush.

None of these fires reached beyond an acre in size before it was brought under control. Nevertheless the danger of such a fire getting out of control is always present. The exercise of good judgment and carefulness with fire while in the bush is the answer.

At present rates, a railway box-car has earned less than 80 per cent of its replacement value by the time it is retired from service.

in the vicinity.

Mr. and Mrs. Ken Goodwin and his two small sons of Gormley are holidaying at the home of Mr. and Mrs. Carl Dugan.

FIFTY BRITISH BOYS VISITING CANADA AS GUESTS OF W. WESTON

Fifty British boys sailed from Liverpool England, for a one-month visit to Canada as guests of W. Garfield Weston. Meanwhile the stage has been set to welcome the boys to Canada on August 2nd.

The tour fulfils the four year old promise made by the Canadian industrialist when he lived in England and was a member of the House of Commons there. When he gave up his seat, Macclesfield in the Midlands, to return to his biscuit, bread and candy interests, he announced his 'see Canada' plan to lay the groundwork of closer relations between the United Kingdom and Canada by enabling teen-aged British boys to visit the Dominion yearly as soon as travel conditions permitted.

In Canada, arrangements for the tour are in the hands of the National Council of the Y.M.C.A. and representatives of the Weston organization. Highlights will include visits to industrial plants, historical sites, and of course, Nla. Falls. Climaxing the trip will be a two-week stay at Toronto Y.M.C.A.'s Camp, Pine Crest in the Ontario's Muskoka Lakes district.

Half of the boys in the group were selected from Mr. Weston's old constituency Macclesfield, by a committee which included the mayors of Macclesfield and nearby Congleton. The remaining 25 boys, chosen by the National Assn. of Boys' Clubs, come from all parts of Great Britain, including Scotland, Wales and Northern Ireland.

Yesterday, Mr. Weston bade the boys 'bon voyage' at Hoswall, Cheshire, where they gathered, before going on to Liverpool and aboard the 'Empress of France.' At the dock in Montreal, to welcome them will be R.A. Robertson, president George Weston Limited, and other Weston executives. The boys will also be welcomed at Montreal's city hall by Mayor Camillien Houde. At Ottawa, where the boys will see the inner workings of the Mounted Police, they will call on Sir Alexander Clutterbuck, British High Commissioner to Canada. In

Toronto, Mayor M. Callum will present the boys with beavers and pelicans for the London zoo. In return, the boys will present the city of Toronto with swans from the king's royal preserves.

After visiting Niagara Falls and London, where the boys will present greetings to the mayor from the Lord Mayor of London, England, the boys will go to the Y.M.C.A.'s

Camp Pine Crest. On August 25th, they will return to Toronto, and a day later, sail home from Montreal.
